NOVOMATIC

The NOVOMATIC AG Group

In 1980, a young entrepreneur with a visionary pioneering spirit and the courage to innovate laid the foundation for today's global company: Professor Johann F. Graf. Today, the NOVOMATIC AG Group is one of the biggest producers and operators of Gaming Technologies, with approximately 21,900 employees worldwide, locations in about 50 countries and exporting high-tech electronic gaming equipment to approximately 100 countries. The Group operates about 212,000 gaming machines in its 2,000 plus traditional and electronic casinos as well as via rental concepts.

Part of the Group is also ADMIRAL Sportwetten GmbH, Austria's leading sports betting operator with around more than 200 outlets, as well as the Vienna-based online gaming specialist Greentube GmbH. The main markets of the Group are the Member States of the European Union; the Central, Eastern and

South Eastern European markets where NOVOMATIC was, due to its early market entry, able to establish an excellent position; as well as expanding markets with exceptional growth such as Latin America and the US.

Gaming innovation starts here

Research and development are important cornerstones of the NOVOMATIC business model. 28 technology centers in 15 countries represent world leadership in the development of innovative technologies, system solutions, and promising products for the land-based, online, mobile, and social gaming segments.

Products, services and solutions for all business segments

- Casino and VLT / SBG products
- AWP / LPM for arcades, bars, bingo parlours
- Sports Betting products and systems
- Casino Management Systems
- Content Delivery Systems (AV)
- Accessories
- Online / mobile / social gaming solutions

NOVOMATIC is also the market leader in Europe in terms of electronic casino operations, operating about 2,000 gaming facilities worldwide. These operations are part of the unique and integrated market strategy as both a manufacturer and an operator. NOVOMATIC uses its own operations in the various markets as a field test environment for new products and solutions prior to market launch.

Operations of all kinds

- Casinos and electronic casinos
- Arcades, bingos, bars / pubs, sports betting outlets
- Online / mobile / social casinos
- VLTs

State-of-the-art production facilities

NOVOMATIC has an excellent reputation for innovative high-tech gaming equipment and content that is characterized by premium quality and reliability. Operators value the fast ROI, low maintenance costs and first-class after-sales service and support. The Group comprises modern production facilities at the Austrian headquarters, the Netherlands, Germany, Italy, Poland, Spain and Hungary, as well as in the USA, Australia, amongst others. Top quality management and ISO certification policy are mandatory.

As a manufacturer with a global footprint NOVOMATIC attaches great importance on its corporate sustainability policy. Through an optimized production ecology and resource efficiency, as well as sophisticated environmental management policy, the Group aims to keep the ecological footprint to a minimum. We are therefore successively implementing photovoltaic systems at our headquarters and in central core markets.

NOVOMATIC's Unique Combination

NOVO LINE Novo Unity™ II adds extra dimensions of functionality, flexibility and future-proofing to every casino floor. The server-based system provides operators with a unique tool to create a special entertainment world for the distinctive requirements of their casino: choosing the best from server-based electronic table games and slot gaming solutions.

Key Platform Features & Benefits

NOVO LINE Novo Unity™ II offers numerous advantages through its innovative server architecture and integration into the comprehensive NOVO LINE™ system:

- ETG options:
 - **TouchBet®-game version:** live game connection
 - **Multi-game version:** fully automated game
 - **Flying-game version:** completely animated game
- Unique multi-game capabilities – electronic live games and slots available in one system
- Sophisticated animated game layouts and colour style options
- Flexible casino floor management
- Large number of terminal connections
- Future-proof infrastructure
- Online real-time monitoring
- User-friendly configuration and maintenance
- Increased game frequency & security
- Easy touchscreen betting for guests
- Multi-Denomination and multi-language options

NOVO LINE Novo Unity™ II

NOVOMATIC ETG versions

The NOVO LINE Novo Unity™ II electronic table games are available in a variety of game versions that cater to the individual requirements of modern casino floors. Options include fully automated game versions, entirely virtual versions as well as the possibility of connecting the ETG terminal to a live table game.

Novo TouchBet® Live Roulette

ELECTRONIC LIVE ROULETTE

- Connects all terminals to a dealer-operated live Roulette table
- Novo Dealer Board increases game speed and minimizes errors
- Wheel sensors broadcast winning numbers
- Live camera broadcast

Novo Multi Roulette™

ELECTRONIC AUTOMATED ROULETTE

- Connects all terminals to a fully automated Roulette wheel
- No dealer required – no disputes over bets placed
- Fully random wheel operation
- Wheel sensors broadcast winning numbers
- Live camera broadcast

Novo Flying Roulette™

ELECTRONIC VIRTUAL ROULETTE

- Connects all terminals to a fully virtual Roulette game
- No dealer required – no disputes over bets placed
- Fully random RNG
- Virtual live display of bets placed
- Virtual display of Roulette wheel

NOVO LINE Novo Unity™ II

Simultaneous Betting

This addition to the multi-game functionalities for the range of electronic live games based on NOVO LINE Novo Unity™ II delivers a new dimension of game turnaround for players.

Simultaneous betting options allow guests to play up to three electronic live sessions of one game type at the same time: Roulette, Baccarat, Black Jack or Sic Bo. Extra game windows on the betting screen enable the guest to switch at any time between available games and game versions such as TouchBet®, Multi- or Flying versions of a game.

Video Slots for ETGs

NOVOMATIC's Unique Combination

Classic hot slot mixes for multiplayer game enthusiasts. A unique feature of the NOVO LINE Novo Unity™ II system is the flexible interconnection of a great variety of electronic live games and slot games on a large number of individual player stations.

This multi-game functionality allows the operator to link any chosen number of terminals to different games and game versions of Roulette, Baccarat, Poker, Black Jack, Sic Bo and Bingo as well as a great slot games offering within one installation.

ELECTRONIC TABLE GAMES

GOING FOR GOLD™

The Roulette jackpot side bet

These jackpot side bet winning chances add some extra thrill to the classic Roulette game! GOING FOR GOLD™ is a multi-level jackpot side bet, set up as a Local- or Wide-Area Progressive offer for all connected Roulette games. Additionally to their classic Roulette bets, players can also choose to buy and place a certain quantity of side bet tokens on the Roulette numbers of their choice, thus participating in the jackpot game. The winning number for the side bet is the same as for the traditional game.

Players can qualify in the initial Jackpot Journey game by buying the tokens and placing them on the layout.

With each GOING FOR GOLD™-side bet on a winning number they qualify for the next jackpot level: Winning e.g. an IRON jackpot entitles the player to bet on the next jackpot level, BRONZE; winning that allows them to enter the SILVER jackpot game; and a SILVER jackpot grants access to the GOLD jackpot level.

The number of jackpot levels, denomination of the jackpot tokens and individual win values for the jackpot levels can be adjusted according to operator preferences in the menu settings. GOING FOR GOLD™ is available for all Roulette variants of the NOVOMATIC ETG offer based on NOVO LINE NOVO UNITY™ II.

Lucky Lady's™ Roulette

Lucky Lady's™ Roulette

Roulette with an extra touch of Lady Luck

Lucky Lady's™ Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. Players place their bets as normal on the layout with the same odds as a traditional Roulette game on all outside bets and splits, the exception being that straight number bets pay-out at 30 for 1. In each game, after betting is closed and while the Roulette ball is still spinning, the Lucky Lady picks 1-4 random LUCKY LADY BONUS NUMBERS (from 0-36), with bonus multipliers totalling 210x stake for straight numbers, displayed on magic spheres.

Operators can choose the parameters for the number of LUCKY LADY BONUS NUMBERS to be drawn: from 1 – 4 extra numbers and any random variation between. The total bonus multipliers of 210x bet will always be randomly distributed among the number of spheres.

At "No More Bets" the random LUCKY LADY BONUS NUMBERS are revealed to all players at the top of the Roulette layout, along with their respective bonus multipliers, and the bonus numbers are highlighted on the betting field. Only straight number bets on these highlighted numbers can win the respective LUCKY LADY BONUS MULTIPLIER.

If the game result matches a LUCKY LADY BONUS number and the player has bet on that number, they get their 30 for 1 straight bet plus the stake placed on that number multiplied by the LUCKY LADY BONUS MULTIPLIER drawn for that number, so a lucky player could win up to 240 times their stake!

Lucky Lady's™ Roulette is available for all Roulette variants of the NOVOMATIC ETG offer based on NOVO LINE NOVO UNITY™ II: Novo Multi-Roulette™, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions.

The games are presented to guests in a highly attractive automated 6-player island configuration, consisting of individual player stations and one automatic Roulette wheel embedded in a magnificent veneered table. Each player station is equipped with a 24" full HD touchscreen monitor that can be individually tilted as well as with automated cash handling.

Dimensions (technical drawings p. 129):

Width: 2585 mm / 101.77 in

Height: 2356 mm / 92.76 in

Depth: 898 mm / 35.35 in

Optionally available:

The attention-gripping illuminated Light Gate sign arch.

- Fastest automated Roulette game on the market
- Multi-game offering (Roulette & HD slots)
- High usability and low maintenance
- Fully operator manageable bet settings
- Automated secure cash handling and payout mechanisms
- Pre-select bet strategies and easy touch betting
- Player monitors (24") can be electronically tilted for maximum comfort
- Individual language selection and multi-denomination
- NEW functionalities include:
 - Speed up/Auto Speed up
 - Undo/Redo/Repeat last bet
 - Show win calculation
 - Select style/Select view
 - Draw chips/Complete
- Connection of video slot cabinets to the wheel for additional live game offer

LOTUS ROULETTE™ Jackpot

Roulette Jackpot

In addition to betting with the regular chips, players can also bet on any number with a special JACKPOT chip to play for the MINOR BONUS, the MAJOR JACKPOT and the GRAND JACKPOT. The side bet is won if the chip has been placed on the traditional winning number and matches with the lucky numbers of the respective wheel sections for the jackpots. The higher the jackpot level, the more matches are required, while the wheel sections of lucky numbers get consistently narrower.

The MINOR BONUS is a fixed amount awarded to every winner, whereas the MAJOR and GRAND JACKPOT are progressive and can be won by more than one player. They consist of a fixed amount and a progressive amount which is split equally among all the winners. Only the highest Jackpot per elected number is awarded.

NOVOVISION™

The visionary solution

NOVOVISION™ Casino Management System

Built on the latest cutting-edge technologies, NOVOVISION™ is a revolutionary new casino management system with extensive features that cover all areas of a modern casino operation. In a steadily changing gaming industry, a contemporary CMS needs to be more dynamic and flexible than ever before.

The system's modular design makes customization easy and allows absolute flexibility based on the operators' needs and legal obligations. Worldwide, some 40,000 gaming machines, 3,000 betting terminals and 1,300 cash machines are operated via this comprehensive software package. The NOVOVISION™ system provides a powerful tool set that allows operators to streamline their processes, increase operational security and maximize the convenience for their guests.

A highlight of the system is the patented state-of-the-art biometric technology which provides the most secure and innovative cashless experience on the market. Fingerprint and face recognition used for entry purposes ensure distinct identification of registered customers. In-depth player tracking allows analysis of behavioral patterns and preferences, conclusions about types of games and cabinets in use, as well as specific strategic marketing actions. The attractive NOVOVISION™ loyalty programs show a considerable impact on turnover gains, so more and more operators opt for this system.

NOVOVISION™'s main features at a glance:

- Slots and Table Management
- Player Management
- Registration/Reception Desk
- Cash Desk & Cash management
- Access solutions
- Biometrics (optional)
- e-Wallet
- Credit/Debit card handling
- Jackpots
- Responsible Gaming
- Security & Surveillance
- Loyalty & Marketing
- Accounting & Reporting
- Business Intelligence
- Apps for mobile devices
- Floor Plan
- Multi-site support
- 360-degree solution

Standard services:

- Pre-installation site survey & technical advice
- IT infrastructure assistance
- On-site installation
- Staff training
- On-site go-live support
- 24/7 after-sales support

Special services on demand:

- System customization (government requirements, customer needs)
- Jackpot parameter advisor
- Dedicated support of special events on-site
- Operational audit
- 24/7 automatic system monitoring & preventive maintenance

The visionary solution

NOVOVISION™ *access*

NOVOVISION™ *access* – Modern access solutions

To satisfy growing demand for customized access solutions, we engineered highly sophisticated products which leave nothing to be desired in terms of quality, reliability and security. The main target is to offer guests of a gaming location fast and preferably unobstructed access to the gaming floor. The option to use biometrics for identification or verification ensures hassle-free admittance.

The devices on offer can be individually configured with card reader, fingerprint scanner, face recognition, or even an age verification system.

- Tripod turnstile
- Flap barrier gate
- Swing gate
- Face recognition terminal
- Fingerprint terminal
- Registration & Reception Desk
- Self-registration terminal

NOVOVISION™ *promo*

NOVOVISION™ *promo* – Customer retention and promotion system

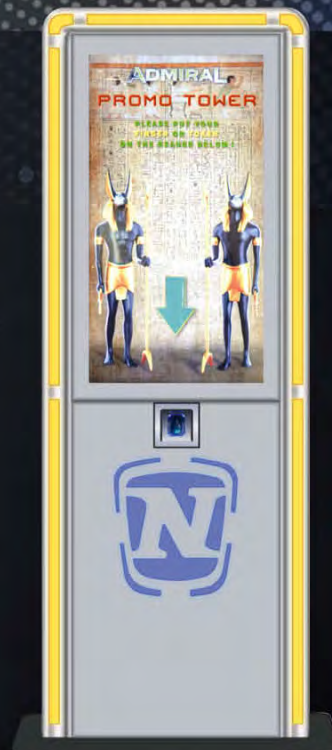

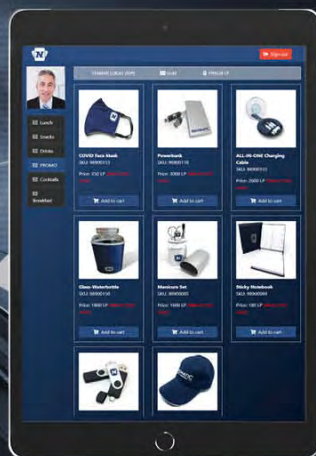

NOVOVISION™ *promo* offers a unique customer retention solution. The proven concept of a complimentary game is embedded in a stylish stand-alone terminal and serves for increasing the number of visits of registered customers within a specified period. The type of promotion will be individually customized according

to the specific operator requirements, it might be for instance a promotional ticket, a voucher for catering or loyalty points, which can be exchanged in the Loyalty Shop for a variety of goods specified by the operator.

The visionary solution

NOVOVISION™ *wallet*

NOVOVISION™ *wallet* – 360-degree solution

The NOVOVISION™ *wallet* substitutes costly TITO tickets and printers by enabling the virtual transfer of credits among gaming machines and betting terminals, payouts at cash desks and cash machines, payments at vending machines, catering, casino hotels and even online: the NOVOVISION *wallet* is able to interconnect land-based operations with online platforms, hence representing a true 360-degree solution.

Multi-site operations linked via a central server allow the transfer of credits among all locations connected. The medium for identification can be a smart card, a biometric feature like fingerprint, a mobile phone with NFC, or a password for online activities.

NOVOVISION™ *pay*

NOVOVISION™ *pay* – Payment devices

In order to automate payment processes, a range of products is on offer. Using the best-in-class dispenser and acceptor technologies, NOVOVISION™ provides the most reliable cash handling systems available. An individual range of options and state-of-the-art security features guarantee maximum flexibility and security.

All models may optionally be equipped with fingerprint reader, face recognition and/or smart card reader (magnetic strip card, NFC, RFID). It is also possible to integrate equipment supplied by the bank of the operator to process credit cards or banking transactions at a cash machine.

The visionary solution

NOVOVISION™ *live*

NOVOVISION™ *live* – Live table add-ons

The casino industry is constantly looking for modern improvements to the complex field of Live Gaming. NOVOVISION™ offers a variety of tools that assist in performing all the tasks necessary for operating Table Games.

- **Live Table Accounting**

It is quite a challenge for casino operators to keep a clear picture of things going on in the pits concerning turnover of live tables. Our software helps to keep track, gives an overview of turnovers, and is highly supportive in tasks such as daily settlement. The accounting system is extensively adaptable to individual and legal circumstances. Customized reports can be generated.

- **NOVODROP**

As an extension of Live Table Accounting, our highly sophisticated “N-Drop”- acceptor is available. All cash payments are automatically counted, registered in real-time and securely stored. The device will be integrated into the live table.

- **Live Table Loyalty**

Loyalty in live gaming is usually the duty of the pit boss, who

observes a number of tables, to reward bonuses to certain clients, typically high-rollers. In order to facilitate this stressful duty, we offer an automated electronic system on a tablet-PC, that helps to calculate bets and the turnover of individual clients and thus enables subsequent bonusing. The system is highly customizable.

- **Face Recognition for Live Tables**

As a helpful extension of Live Table Loyalty, a face recognition system is available, which compares the facial images of guests around a table with the database of registered clients. The facial pictures of the guests are shown on the tablet-PC of the pit boss. Guests playing on two or more tables at the same time are monitored and recognized. If a guest is no more present at any table, the app will notify the pit boss. The software is fast and accurate, automatizes tasks of the pit boss and improves the efficiency of processes. Usually, the system works with two cameras unobtrusively hidden in poles, which are strategically positioned in the ideal angle in order to be able to capture all players' faces in front of/around the table.

NOVOVISION™ *smart*

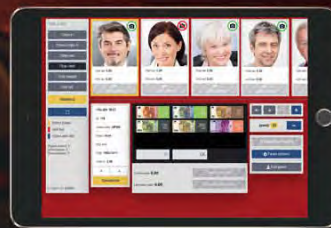

NOVOVISION™ *smart* – Mobile solutions

NOVOVISION smart is an innovative mobile application that enables casinos to interact with their customers via mobile phones. The app provides access to the wallet balance, loyalty status, Loyalty Shop as well as to the NOVOVISION™ pre-registration, which helps to speed up the registration process.

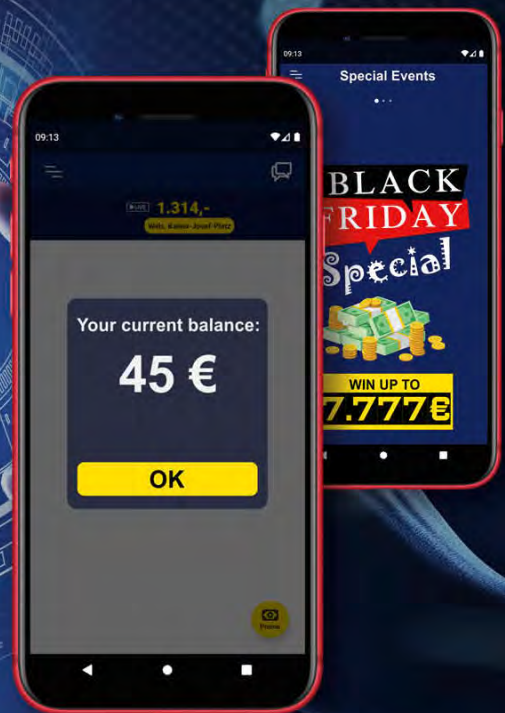

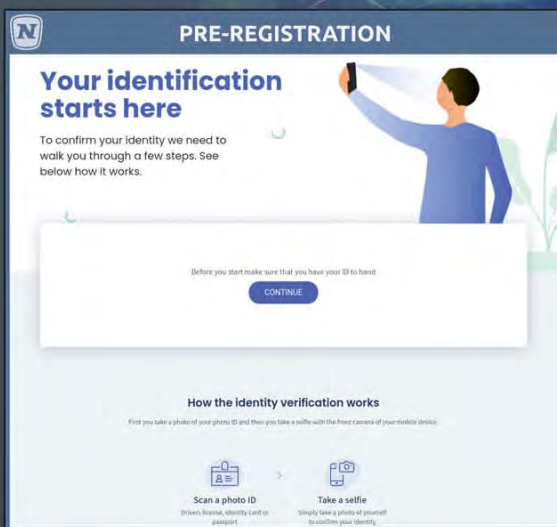

Furthermore, it allows the transfer of funds to and from gaming devices by means of the mobile phone's NFC function, thus

turning a card solution into a digital one. The operator benefits from the possibility of a direct marketing channel, which allows advertising focusing on specific target groups. The software is completely customizable according to individual operator needs.

NOVO CASH

NOVO Cash machines are designed by LÖWEN Entertainment, the German subsidiary of NOVOMATIC, bringing new and proven cash management concepts to international gaming venues. Extensive expertise in gaming and payments combine to create all-in-one solutions for operators to manage and automate cash transactions on the gaming floor.

Whilst maintaining their high standards of money changing, cash and cashless capabilities, the new NOVO Cash machine range incorporates the latest payment solutions. This includes TITO, Cashless, as well as a bank card option, which allows players to

purchase a TITO ticket using a bank card via contactless or chip and pin, and redeem winning tickets onto their bank account – creating a totally cashless experience.

The NOVO Cash X software, available on all machines, gives detailed statistics and reports, both at the machine and remotely, as well as a raft of configurable options to operate the machines in a customised way. In addition, NOVO Cash is compliant with the majority of casino management systems and integrated with all industry-standard protocols.

Casino Master

The ultimate payment machine

Designed for integrated resorts, casinos and large amusement arcades, the Casino Master combines some of the fastest, highest capacity and most secure components available. With features such as TITO, Cashless and Biometrics, the robust security cabinet features a large touchscreen display, fast-action banknote dispensing and a massive electronic steel vault.

NOVO Cash X4

The compact redemption machine

Compact and modern, the X4 boasts a new and improved security mechanism whilst offering a smaller footprint on the gaming floor. Whether as a TITO or Cashless solution, the X4 is characterized by a high level of features, with options of different bank-note validators, coin hoppers and a dispenser with up to 5 cassettes. The front door features an illuminated design edge giving an elegant and modern appearance.

NOVO CASH

NOVO Cash X6+

The enhanced version of the X6

Compared to the conventional X6, the NOVO Cash X6+ offers an enhanced front door with a new 8-point locking mechanism. In addition to further optimizations in various aspects, a blue illuminated edge runs around the front door giving an eye-catching design. Built for the future, current payment technologies are incorporated as standard including bank card solutions. Like its predecessor, the X6+ can be built to customer specifications and its large capacity allows components to be upgraded at a later stage as requirements change.

NOVO CASH

International Sales:
Axel.Steinhagen@loewen.de

NOVO Cash X8

The innovative money changer

The flagship cash machine from NOVO Cash, the X8 features a 24-inch touchscreen monitor and striking design with an all-round blue LED edge. The heart of the NOVO Cash X8 is its powerful banknote recycler: the MRX. This high-tech component enables extremely fast checking and processing of banknotes, with deposit and withdrawal of up to 30 notes at once, as well as up to 480 notes in the banknote recycling system across all note denominations. In addition to bringing ultimate speed to players, the X8 has been designed with the operator in mind, ideal for cashier cycles and the flow of money in a venue.

Offering fast and, above all, secure payments with two banknotes per second, the X8 also promises high performance in coin recycling with three hoppers and its own coin box. At the same time, the innovative locking mechanism offers an extremely high-security concept.

greentube

Greentube, the NOVOMATIC Digital Gaming and Entertainment division, is one of the industry's best and most respected suppliers of iGaming content and has wowed players for over 20 years with its portfolio of entertaining online casino games and services.

The company's story began in 1998 and Greentube became a proud part of the NOVOMATIC AG Group of companies in 2010. Today, Greentube is an industry leading integrated iGaming supplier and operator, with offices in major cities worldwide and a committed team of more than 750 people from over 60 different countries. It is driven by the desire to entertain, inspire and to be at the forefront of innovation in the industry.

Last year was characterised by expansion and acquisition, with a strong focus on North America. Having gained a supplier licence in Michigan to add to that in New Jersey, Greentube went on to launch its top-performing titles with tier-one operator BetMGM in both US territories, adding to an agreement already in place with Golden Nugget in the Garden State. Additionally, Rush Street Interactive launched Greentube titles on its PlaySugarHouse brand in New Jersey, as the supplier took its extensive portfolio live including hits Diamond Cash™: Mighty Elephant, Diamond Cash™: Mighty Sevens and Diamond Link™: Mighty Santa.

Canada continued to be a strong focal point for partnerships, too. Gaining its Ontario licence from the Alcohol and Gaming Commission of Ontario (AGCO), Greentube is entering a market which implemented online regulation for the first time in 2022. It follows on from other launches in Canada, including British Columbia, Manitoba and Quebec.

As ever, content is key and Greentube feels there is a need to develop solutions from scratch to cater for the particular preferences of players in the region. Hence the acquisition of US-based studio Present Creative, which is now known as Greentube US. With a proven track record of creating content for both the iGaming and iLottery sectors, the studio has produced a range of innovative titles that have been approved for release by the Michigan State Lottery. The acquisition serves to boost the capabilities of the studio and increase the speed to market of its content roadmap, while Greentube has gained a local team focused on game development, graphic design work and sales in the US.

Additionally, Greentube recently moved to establish a joint venture with emerging studio Flamingocatz, in a partnership that will also see new and exciting content created for North American markets. After acquiring a 40% stake in the developer, established in 2022 to bring disruptive slot titles to the Americas, the two parties plan to collaborate on developing future content for Greentube's portfolio. This will entail leveraging Flamingocatz's local knowledge and production capacity, to bring titles that deliver on player expectations.

Content-wise, 2023 continues to be another major year with a host of key releases. The first new Diamond Link game released

this year was Diamond Link: Almighty Wolf. It is a game that hosts an exciting features set, including Diamond Re-Spins and a Collect Feature that combines all diamonds shown on screen into one big prize. There's also the renowned Diamond Link™ Jackpot feature, where major rewards are on offer to the player.

Another key launch on the roadmap is Diamond Tales: The Little Mermaid, which hits the market at the end of March. Based on the Hans Christian Andersen story, this slot awards players magical wins across five reels and 40 win lines. Players collect Pearl Hearts on the Special Reel to either take with them into the Snap Drop or Diamond Tales™ Features, or to progress the story and reach the Ocean Feature.

In the second quarter of the year, all eyes will be trained on our futuristic original title Cyber Wildz. Played out on six reels and five rows, players experience the cyber city of the future where cultures mix and the impossible becomes reality. Kray-Z the Reaper can hack into anything, stealing riches and even multiplying them, and if her and Y-Pout the Assassin team up in the Free Spins Bonus feature, untold wealth awaits. Also on the horizon in Q2 2022 is

Online & Mobile

Cash Connection™ Candelas De Los Muertos™ Señorita Suerte, an online version of the highly anticipated land-based game with a day-of-the-dead theme.

Most significantly, the focus for this year will be on the continued roll-out of Greentube Mynt, a new tech stack that represents a true revolution in technology and gamification. It delivers a state-of-the-art RGS with next-level games and engagement features, providing a foundation for a complete games entertainment solution of the future with which to maximise player engagement and retention.

Greentube Mynt features worldwide access to trend-setting games for Greentube partners. This means delivering games that are truly innovative, with both international and local games enabling operators to make their mark. The engagement features equip partners with a rich offering of various player retention tools for a fully enhanced gaming experience, while a state-of-the-art microservices platform provides a secure, reliable, robust and scalable framework, along with carefully designed tool support.

Greentube Mynt Create is the next-generation Games Development Kit (GDK) enabling cutting edge games to be developed by over 15 games studio partners, worldwide. The GDK facilitates rapid speed-to-market for content creation and delivery, allowing access to a wide variety of innovative titles.

The platform has been designed from the ground up with platform gamification and player retention tools in mind across multiple games. Player retention tools are presented as a pre-installed in-game widget with overlay functionality, limiting the amount of integration work, while a full-blown backend ensures an easy pre-configuration of end-player promotional campaigns and campaign tracking.

The new Free Spins module gives operators full control with no hassle. Simple and intuitive to set up, it allows for players segmentation, providing a Dynamic Trigger Conditioning engine. The platform boasts a flexible jackpot system, with day one containing a three-tier jackpot system, including Hourly and Daily jackpots; alongside a 'Massive-Hit' jackpot, delivering a once in a lifetime prize. There is also Pick'N'Hit, a gamification layer added to prize drops that displays a pick-a-present mini-game. The rest of 2023 contains an exciting roadmap of fresh platform features, with tournaments and more coming soon – this is just the beginning.

The launch of Mynt is another example of Greentube doing what it does best – using its vast heritage and deep industry knowledge to provide fresh, entertaining and technology-driven gaming experiences for audiences around the world.

For more information on the company visit www.greentube.com.
